Mountain View M.D. Council Meeting

The question of reduction of hospital fees was discussed at the meeting of the council held on Saturday. A letter was read from the Olds Hospital proposing that the hospital fees for patients residing in the municipal districts of Mountain View and Westerdale and the town of Olds be reduced from \$3.00 per day to \$2.50 per day, and that the fees for outside patients be reduced to \$3.00 per day.

The council passed a resolution approving the reduction in fees.

At the request of the provincial government all cases of relief were reviewed, and it was decided that in view of the fact that work was generally available in the summer, relief would be stopped in most cases at the end of May.

A letter from the government was read dealing with the new amendments to the Municipal Act. It was pointed out that the supplementary revenue tax of 2 mills had been repealed and that the Social Service Tax of 3 mills had taken its place. It also pointed out that there would be no discount allowed on the social service tax. The wild lands tax had also been repealed.

Settlement was made for a diversion at N.W. of 8 31 27 4 on the Didsbury South Road East.

Seed grain applications were discussed and one case was reported under the Farmers' Credit Arrangements Act. An application for tax consolidation was also approved.

Fish and Game Association Annual Meeting.

There was a good representative turnout at the annual meeting of the Didsbury Branch of the Alberta Fish and Game Association held Monday evening at the C.P.R. waiting-room.

The president reported that last year there were 73 paid-up members and said that while the activities of the club had not been extensive during the year, the local branch had kept a close touch with the work of the parent society and several communications had been sent to the Association and the government department. Two delegates had attended the convention of the Alberta Fish and Game Association, and he gave a short report of the proceedings.

The "Bird Committee" reported that the experiments in introducing quail here had not met with success. They reported, however, that the Chinese pheasants introduced a few years ago were increasing and birds could be seen in a number of places in the west country.

The committee on "Pests" reported that the Westerdale Municipality had arranged to pay bounty on crow and magpie eggs and feet, and efforts were being made to arrange with Mountain View M.D. and the town to also pay bounties. It was also decided to build crow and magpie traps, which had been very successful in other districts. Several members volunteered to assist in building the traps.

A draft of the proposed angling regulations was presented and discussed.

Following are the officers elected:
Hon. Presidents
Hon. W. N. Chant, Hon. C. C. Ross.
President: J. A. McGhee.
Vice-Pres.: C. H. Adshead.
Sec.-Treas.: J. E. Gooder.
Committees
Membership: C. H. Adshead, W. Gillrie and George Julien.
Game Birds: J. H. Fleury, Jim Caithness, W. Davies, J. Hosegood.
Big Game: Bert Fisher, K. McCoy and C. H. Adshead.
Fish: C. E. Reiber, T. Johnson, J. McCloy and C. R. Ford.
Pests: Ed. Ford, J. H. Fleury, A. Brusso and A. McNaughton.

Hospital Fees Likely to be Reduced

There is every likelihood that the hospital fees at Didsbury Hospital will be reduced in the near future.

About a year ago the Didsbury Hospital Board made an attempt to have the fees reduced, but at that time co-operation could not be obtained from the town of Olds, which is interested with the municipalities of Mountain View and Westerdale in the hospital at that place.

Last week the Olds Hospital approached the councils of the town of Olds and the municipalities, proposing that the rates be reduced to \$2.50 per day for patients residing within the town and the municipalities of Mountain View and Westerdale, and to \$3.00 per day for outside patients.

The Didsbury Hospital Board will again take the matter up and the probability is that the fees will be reduced at the local hospital.

Mr. and Mrs. Jack Pearson, of Bashaw, are visiting Mrs. Pearson's parents, Mr. and Mrs. Geo. Liesemer.

Grand Prize at Band Concert

To raise money for uniforms the Didsbury Band has arranged a concert to be given in the Opera House on Friday, May 22.

In connection with the concert a beautiful 3-Piece Chesterfield Suite will be given away to the holder of the lucky ticket. The suite can be seen in the window of Chambers' Drug Store.

The Band will play a number of selections on the C.P.R. lot this Saturday evening and the boys will have tickets to the concert for sale.

The Band is an asset to the community and you can show your appreciation by purchasing tickets.

Local Winners In Olds Inspectorate Music Festival

Melvin School Wins Shield.

The Melvin School won the shield for rural schools, having taken the largest number of points. Six first prizes were among the awards won by Melvin.

First prizes were taken by the school in the chorus division and in dramatization with "Copperfield and the Waiter."

Individual awards were won by the following pupils:

Recitation, Grade 7: Helen Goforth 1st; Grade 5, Donald Radford 1st; Grade 4, Olga Dupont 1st, Clary Youngs 2nd, Ethel Landeen 3rd; Grade 2, Lois Krebs 1st.

Solos: Grade 7, Emil Dupont 2nd; Gr. 3, Francis Jackson 2nd. Miss Hazel Ray, who trained the children, is to be complimented on the excellent showing of her pupils.

Didsbury School.

Didsbury Public School made a very good showing at the festival and took six prizes in singing for town schools and two awards for recitation, the winners being:

Gr. 1, Solo: Irene Sinclair 2nd
Gr. 4, Solo: Dorothy Buhr 3rd
Gr. 7, Solo: Mary Boorman 2nd
Gr. 8, Solo: Jack Edwards 1st; Lorna Carleton 2nd.
Gr. 9, Solo: Alma Cunningham 3rd.

Gr. 7, Recitation: Mary Boorman 2nd.
Gr. 9-10, Recitation: Betty Boorman 1st.

Rosebud Wins Prizes.

Rosebud School was successful in obtaining four prizes at the festival.

They took second place in action songs, also 3rd prize in dramatization, with "The Sing-Song Man."

Gladys Peterson took second place in Grade 2 Recitation and John Parker 3rd place in Gr. 1 Recitation.

Clovermount Gains.

Clovermount School won 1st prize in choral speaking, 2nd prize in two-part songs and 4th prize in choruses, while George Will took 1st prize in Grade 1 Singing.

The Didsbury and district 1st prize winners took part in the Grand Concert of 1st prize winners presented in the evening.

W.C.T.U. District Annual Convention

The 24th Annual Convention of Central Alberta District W.C.T.U. met at Zion Evangelical Church on Tuesday and is still in session as we go to press.

On Tuesday, beside the regular business of the convention, a program was given by schoolchildren and a banquet served to the delegates.

A full report of the proceedings will be given next week.

Westerdale Council.

The regular meeting of Westerdale Municipal Council was held Saturday at the municipal office.

A delegation from Mound appeared before the council, asking that the road from Westward Ho to the township line between 33 and 34 be graded. The council promised to take the matter under consideration.

It was arranged that the council would make their annual inspection of roads during the first week in June, after which the road program for the year would be mapped out.

The rate of pay for roadwork was set at: Single man 30c per hour; 2-horse teams 20c per hour; overseers 40c per hour; engineers and graders 60c per hour.

It was arranged to give a bounty on crow and magpie eggs and feet the same as last year. The opinion was expressed that to make control effective bounties should be given by adjoining municipalities.

A by-law was passed under the 1935 Tax Consolidation Act, and applications for tax consolidation will be received by the secretary.

It was decided to purchase two new maintainers and two new road drags.

A complaint was received that

Players Entertained.

Mrs. J. L. Clarke, Mrs. McCoy and Mrs. Ranton acted as hostesses at the home of the former, Tuesday evening, the guests being the members of the cast of "Eyes of Love" with their husbands and wives, Rev. J. R. and Mrs. Gerson, and the Misses Jessie McCoy and Jessie Topley.

The tables were centred with cut flowers, and following a delightful dinner bridge was enjoyed, honors going to Jessie McCoy and Dorothy Ranton.

A presentation on behalf of Knox Ladies Aid was made to Mrs. Wallace, who has acted as directress and a happy evening was closed with a vote of thanks to the hostesses, given by J. W. Halton.

This dinner came as a climax to many weeks of the most congenial association on the part of the players coupled with the heartiest support and co-operation of the Ladies Aid.

J. Gurney had erected a sawmill on a road allowance in the Elkton district and it was decided to ask Mr. Gurney to remove same.

Matters of relief and passing of bills was the balance of the business of a very lengthy session.

The Queen Mary

Disappointment is probably in store for millions in the British Empire who have conceived the impression that the first trip of the Cunard-White Star's super-liner, the Queen Mary, scheduled for May 27, is a world sporting event of the first magnitude with the blue ribbon of the Atlantic for speed as the stakes.

The speed record for the Atlantic was held for the British for 22 years by the Cunard Steamship Company's Mauretania until August, 1929, when the title passed to the Rex, flying the flag of Italy, and has not since been recovered by any vessel carrying the Union Jack.

Millions have been led to believe that the Queen Mary is expected to win back the speed supremacy of the North Atlantic for Great Britain and as a result of the great amount of publicity given to this vessel during the course of her construction and on the occasion of her launching at Clydebank a few weeks ago they confidently anticipate that this consummation is to be achieved by the new boat, but this, according to the London Times, is not the purpose of the construction of this great steamship.

On the contrary, the Times shatters this and other misconceptions of the purpose and mission of the Queen Mary. Not only was she not built to wrest the speed supremacy of the North Atlantic from another country but, we are told, she was not designed to be the most luxurious liner afloat, despite reams of descriptive material which has been published emphasizing the lavish nature of her appointments and equipment.

"The problem," says the Times, "was not to build a ship so big and so fast as to 'stagger creation'. The problem all along was to build 'the smallest and slowest ship that could form one half of a weekly service'."

Continuing the Times says: "Speed is very expensive; and a ship must be big to pay for it. On the other hand size is also expensive; and there is need for nice calculation. The Queen Mary is not meant to be the biggest and fastest ship afloat. She is not meant to be a 'luxury' ship at all. It has been made perfectly clear that the luxury will be there for those who seek it; but one advantage of great size in a ship is that room can be made for all sorts of people, and the Queen Mary is not for the rich only."

However, if the Queen Mary is not designed to be the largest ship afloat or the fastest boat on the seven seas or even the most luxurious, she has claims to distinction which make her an impressive monument to the brains responsible for her creation, exemplified in the words stability, strength and safety and these attributes have been achieved without undue sacrifice of size, speed and lavishness.

On the contrary, the Queen Mary is of noble proportions and embodies the last word in naval architecture, marine engineering and scientific research.

Every conceivable device has been adopted to justify the claim made for the Queen Mary that she is the safest ship afloat and that passengers aboard her will be safer than in their own homes. To quote a recent issue of Pearson's Weekly she is "so well equipped with scientific instruments that it will be literally possible, with a little adjustment, to send her from Southampton to New York without a man aboard," and, "she will be able to steam through impenetrable fog at 40 miles per hour, automatically steered and protected from collision with ships and objects."

These devices include a "radio searchlight" with which the Normandie is also fitted, a continuous beam of ultra-short radio waves which sweep the horizon ahead of the bows of the advancing vessel and record obstructions on a sensitive receiver.

New Uniform Calendar Plan

Provides International Holiday And Five Business Holidays Yearly

With a suggestion that it be put into effect on January 1, 1938, Rev. Father Jacob Wilhelm of Regina has drafted a reform calendar which provides for the days of the week always falling on the same dates of each month.

Under Father Wilhelm's plan the four quarters of the year are equal with 31 days for the first month of each quarter and 30 days each for the other two months except that 31 days are provided for December to give a total of 365 for the year. An extra day is wedged in between June 30 and July 1 every fourth year to be known as "leap day."

The year will start with January 1 labelled as "international holiday" and January 2 is to be a Sunday with December 31 a Saturday. If the calendar were adopted Good Friday would always fall on April 7 and Easter Monday on April 9.

It is suggested that Saturdays falling on January 1, April 1, July 1 and October 1 be made business holidays, giving with international day on January 1, five business holidays each year. The first four, according to Rev. Father Wilhelm, would be known as rest days when "everyone should carry out a review of his debts or profits."

The calendar is designed to offset objections of the Christian churches to the recently announced plan to provide for a year of 13 months containing 28 days each.

WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of fluid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You get constipated. Harmful poisons go into the body, and you feel sour, sunk and the world looks punk. A mere bowel movement doesn't always get at the cause. You need something that works on the liver as well. It takes those good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up". Harmless and gentle, they make the bile flow freely. They do the work of calomel but have no calomel or mercury in them. Ask for Carter's Little Liver Pills by name! Stubbornly refuse anything else. 50c

Patient Revived

Apparently Dead For Some Minutes Is Resuscitated On Operating Table

Another case of a patient who "died" on the operating table, only to be brought back to life again by heart massage and injections of adrenaline, is described in the current issue of the British Medical Journal.

The patient, Ernest Hinsley, about 45, of Waterloo, Ashton, is now normal again, but has no memory of having been to the operating theatre.

His heart, said Dr. J. V. Fiddian, stopped without warning and Hinsley ceased to breathe. Efforts at resuscitation began immediately and the "usual two or three minutes were wasted in fruitless artificial respiration."

Dr. Fiddian then resorted to cardiac massage, and continued this for two minutes without feeling any spontaneous movement of the heart. He then injected intra-cardiac adrenaline into the ventricle.

"The effect," he writes, "was immediate and almost magical. With each squeeze that followed the heart was felt to be enlarging and suddenly it began to beat wildly."

"It was several minutes more before spontaneous respiration was established, but after that there was no further immediate anxiety."

"The patient was returned to bed with his heart still beating tumultuously, in a manner strongly suggestive of an overdose of adrenaline."

Distribution of Jews

A total world Jewish population of 16,240,000, of whom 5,000,000, or 30 per cent., live in the Americas was reported by the Jewish Scientific Institute. The survey shows the figure had increased 1,300,000 in the last 10 years. More than 10,000,000 Jews, or two-thirds, live in three countries. The United States has 4,450,000, Poland has 3,150,000 and Soviet Russia, 3,080,000.

Argentina is estimated to contain 200,000 square miles of valuable forests. 2147

Building Flying Boats

Imperial Airways To Operate A World-Wide Service

More than 1,000 skilled men are engaged at Rochester, England, in building a fleet of 29 giant flying-boats for operation by Imperial Airways on world-wide services—including the Atlantic.

There are two decks to the new flying boats, lower being for passenger accommodation and the top for crew (two pilots, two stewards, and a purser), mails and baggage.

The gross weight of the new ships will be 17½ tons, and they will be powered by four 740-h.p. engines, giving a maximum speed of nearly 200 m.p.h. and a cruising speed of 155 m.p.h. Underneath the pilots' cabin is a comfortable smoking room, and there are two more cabins more than eight feet high with adjustable lounge chairs.

There is daytime accommodation for 24 passengers and for 16 sleeping in bunks by night.

SELECTED RECIPES

CHERRY ROLL

Temperature: 425 degrees F. Time: 25 minutes.

½ cup "Crown Brand" Corn Syrup

1 pint jar cherries (canned)

½ cup sugar

1 teaspoon cinnamon

1 cup boiling water

1 tablespoon butter

Tea biscuit batter

Drain cherries and pour juice in a saucepan. Add the water, sugar and "Crown Brand" Corn Syrup. Boil 5 minutes. While the syrup is boiling make an ordinary tea biscuit batter and roll it out in oblong roll. Spread the cherries over the dough; sprinkle with cinnamon, dot with butter and roll up like jelly roll. Place the roll in an oblong pan; pour the hot syrup over it and bake in a hot oven.

Flyers usually find it necessary to use their oxygen apparatus when they reach an altitude of about 18,000 feet.

Seedless watermelons have been grown in horticultural experiments.

Something New In Pictures

Three Dimensional Animated Cartoons To Be Shown

Three dimensional animated cartoons which can be shown with regular movie projection equipment and without use of any gadget by audiences were announced by Max Fleischer, pioneer in the animated cartoon field.

Fleischer declares his invention has passed the experimental stage, and that full length animated cartoons using the third dimension throughout will be released within six months.

Fleischer obtains the third dimensional effect by foreshortening the perspective of the camera to six feet and using a special lens which does not focus directly on the objects photographed.

What this Doctor did for Humanity

As a young man the late Dr. R. V. Pierce, practiced medicine in Pennsylvania and was known far and near for his great success in alleviating disease. Finally he moved to Buffalo, N. Y., and put up in ready-to-use form his Golden Medical Discovery, the well known tonic. This strength builder is made from a formula which Dr. Pierce found most effective when in private practice. It's an alternative extract from native roots.

It helps to cleanse the system, and tends to keep the complexion fresh and clear, aids digestion, acts as a tonic.

Buy of your druggist today. New size tablets 50c. Liquid \$1.00 and \$1.50.

Floods And Sun Spots

Are Closely Connected Is Opinion Of Planetarium Director

Floods that have swept the eastern part of North America during the past few weeks are "definitely correlated" with sun spots "and we may expect damp, rainy weather for the next four or five years because these spots are fast reaching a maximum intensity," Dr. Clyde Fisher, director of the Hayden planetarium and fellow of the Royal Astronomical Society, said in a lecture at Providence, Rhode Island.

No wonder Purity Flour is a favorite for bread. Its richness in nourishing gluten is supplied by Western Canada hard Spring wheat. A strong flour that goes farther—economical.

PURITY FLOUR
Best for all your Baking

Trees Recommended As Suitable For Western Climatic Conditions

Climatic conditions generally are not favourable to tree-growth on the Canadian prairies, particularly in the semi-arid area. The prairie tree-planter has to contend not only with these unfavourable conditions but also with competition from the natural groundcover. Experience has shown, however, says Norman M. Ross, superintendent of the Dominion Forest Nursery Station at Indian Head, Saskatchewan, and Chief of the Dominion Tree-Planting Division, that even in the driest areas trees suitable for shelter-belts, and also for the production of fuel and fence posts, can be grown if proper methods are adopted.

First of all, the soil must be thoroughly prepared in order to eradicate completely the native grasses and other perennials, and to store up a reserve of moisture to give the young plantation a reasonable start. This usually requires two seasons. In the first season the sod is broken a few inches deep and then thoroughly worked. One season is sufficient to kill all the native plants. The following year, the land to be planted is deeply summer-fallowed to open up the soil for the roots and to conserve moisture.

The next step is to select varieties that have proved hardy and capable of withstanding drought when once established. The list of varieties suitable for shelterbelts, and for propagating in large numbers at reasonable expense, is very limited. It consists of: Caragana (Caragana arborescens), a leguminous shrub of Russian origin, exceptionally hardy and drought-resistant, with a dense shrubby growth to a height of about 20 feet; Manitoba Maple (Negundo aceroides), a native tree with a somewhat bushy tendency growing to a height of about 40 feet; Green Ash (Fraxinus lanceolata), a native, rather slow growing tree, also very drought-resistant; the American Elm (Ulmus Americana), a hardy native tree; White Spruce (Picea alba), native; Colorado Spruce (Picea pungens); and Scotch Pine (Pinus sylvestris) of which there are many types, the one most suitable being propagated from seed secured in Finland or central Sweden.

All these varieties can be grown successfully on the average upland prairie soils. In certain districts, usually associated with lighter soils, the water-table may be reasonably close to the surface (from seven to 15 feet), and in these districts many varieties of poplars and willows, in addition to the trees already mentioned, prove very satisfactory.

A Beneficial Exercise

Walking Down Stairs Is Good For Weak Heart

New York City's recent elevator strike probably will take a serious toll for the next six months in hearts damaged by stair-climbing. Dr. J. O. Gieger, San Francisco Health Director, predicted.

Gieger advocates walking downstairs—but not upstairs—as an ideal exercise for persons with cardiac ailments.

Downstairs walking—two or three flights—is beneficial, Gieger said, because even persons with heart trouble require at least some exercise of the muscles and because this form of activity permits it with a minimum of strain on the circulatory system.

Sun Spots And Wet Weather

Floods that have swept the eastern part of North America this spring are "definitely correlated" with sun spots "and we may expect damp, rainy weather for the next four or five years because these spots are fast reaching a maximum intensity," Dr. Clyde Fisher, director of the Hayden Planetarium and fellow of the Royal Astronomical Society, said in a lecture.

In 1934 Canada produced 30,175 electric refrigerators, as compared to 16,649 in 1933. During the same year she imported 1,755 from the United States.

Rideau Hall Staff Busy

Use Spare Time To Help Lady Tweedsmuir's Relief Work

Seven maids have been busy, not only with mops but knitting needles. The seven house-maids at Government House at Ottawa made a knitted patchwork bed-covering and presented it to Lady Tweedsmuir to send with the work from her sewing circle to the destitute areas in the West.

Nellie, Lily, Ruby, Winnie, Louise and Maud, joint workers on the famous quilt, arrived in Canada as part of the vice-regal household. They had been with Their Excellencies some time. Edna, who joined the staff in Ottawa, can tell them all about the need for comforts in outlying Canadian towns.

Down below the white marble staircase in Rideau Hall, more needles have been clicking and flashing. Mrs. Jackson, first lady of the kitchens, has been occupied not only in cooking, but also in knitting a boy's jersey. Little Scottish Annie, Her Excellency's personal maid, has made several pairs of serviceable socks that have found their way into the practical boxes for which the chateleine of Government House is receiving thanks from tiny frontier towns.

One letter of thanks mentions a small boy who had just received his first pair of completely whole breeches with real braces and was parading around to impress the neighborhood. "Little Doreen," who arrived in a household unable to provide her with clothes, is now wearing those made by the sewing circle.

The Wedded State

Fewer Married Persons Are Subject To Mental Ills

Two scientists offered results of a study they interpreted as indicating the ranks of married persons include fewer mentally ill individuals than are found in the single, divorced and widow-widower classifications.

Dr. James Page of Columbia University and Dr. Carney Landis of the New York Psychiatric Institute presented their findings at a meeting of the New York branch of the American Psychological Association.

They said, however, that "marriage is no vaccine against mental disease."

Analysis of records of admissions from 1920 to 1934 at New York mental hospitals, in Massachusetts from 1929 to 1931, and in the entire United States for 1922, they said, disclosed these ratios:

Four times more divorced persons were insane patients than married persons.

Three times as many single persons were listed, compared to married ones.

Widows and widowers numbered double the married group.

Testing New Wheat

Rust Resistant Varieties Will Be Sown This Season

Most promising strains of rust resistant wheats will be multiplied at western experimental farms during the coming growing season, it was announced by the associate grain committee of the national research council.

Members of the committee from eastern and western points were in attendance at the committee meetings in Winnipeg studying reports compiled on last year's surveys of the milling and baking qualities of the rust resistant strains.

Among the most promising strains selected for multiplication this year is Thatcher, an imported variety which has been obtained by a large number of farmers for growing this year. A committee report termed Thatcher "a highly desirable variety."

False carding is a term used by card players, and means the playing of a card meant to deceive the opponents as to the players' holding that suit.

Macadamized Roads

Were Named After John MacAdam, Pioneer Road Builder

The civilized world has become familiar with "macadamized" roads, but it is doubtful if many of the millions who use them know the origin of the term. The British Institution of Municipal and County Engineers are taking active steps to commemorate the centenary of the death of that pioneer of roadmaking, John Loudon MacAdam, which occurred at Moffat, England, on November 26, 1836.

MacAdam was born in 1756, his father being a local landowner and banker in Ayr. At the age of fourteen he joined an uncle in business in New York, and did not return to Scotland until 1783. Thereafter for fifteen years he served as Deputy Lieutenant for the County of Ayr, and devoted much attention to the improvement of the local roads. Subsequently he removed to Falmouth, where he was concerned in the victualling of the navy, though he also made a hobby of studying road conditions in that part of England. In 1816 he was appointed surveyor of the Bristol Turnpike Trust, and a year after demonstrated his system of road construction in London. This system was based upon the principle that, with proper drainage, broken stone of suitable size can be laid on the natural subsoil, thus eliminating the expensive stone-paved foundation that had previously been considered necessary.—Toronto Mail and Empire.

A Very Old Industry

Rush-Mat Making Was Once Good Business In England

A tiny wooden hut workshop in a cottage garden at Pavenham, near Bedford, England, is the last relic of an industry that once employed the whole village. Soon even that will be closed for lack of work, and 70-year-old George Purser will retire on his old-age pension. George Purser is the last of the rush-matting makers at Pavenham.

For three hundred years without a break his family gathered rushes from the River Ouse, plaited them, and made them into horse collars, baskets, chair seats, hassocks, and floor covering. His father employed 12 men and 70 women.

"Now nobody wants rush-matting," Mr. Purser said. "A firm I used to work for used to make 2,000 horse collars a week. Now I doubt if they make 150 a year. We sold thousands of workmen's dinner baskets. After the war men took to haversacks."

An Unusual Job

Over a period of nine years, Judd Budd-Jack of Toledo, Ohio, has cut the profiles of 1,200,000 Americans. With scissors and paper as tools, he requires only 30 seconds for each silhouette. He goes around the country "snipping" for a living.

Cutwork Makes Linens Alluring

Household Arts by Alice Brooks

Here is Cutwork Without Bars

PATTERN 5490

"Where does Mary get such LOVELY linens?" her friends all ask. If they but knew, Mary embroiders her own tea cloths, napkins, dresser scarfs and sets this easy, Alice Brooks' way. You, too, will find this lovely cutwork design the richest—and easiest—you've ever embroidered, for it has no bars, so works up quickly. Use a thread that matches or contrasts with your linens and then see if you don't have just as many compliments as Mary!

In pattern 5490 you will find a transfer pattern of two and two reverse corners 10 x 12 inches and four motifs 3½ x 3½ inches; instructions for cutwork; illustrations of all stitches needed; material requirements; color suggestions.

To obtain this pattern send 20 cents in stamps or coin (coin preferred) to Household Arts Dept., Winnipeg Newspaper Union, 175 McDermot Ave., E., Winnipeg.

There is no Alice Brooks pattern book published

Garden Soil Is Sterilized And Freed Of Weeds By The Use Of Electricity

Soil permanently sterilized—freed of weed seed, destructive insects, bacteria, fungi and plant diseases—by automatically controlled electric cookers.

Vegetables and flowers grown out of season in soil ideally heated by electrical resistance cables and flowers blooming in midwinter as a result of artificial lighting.

Delicate seed made healthy, surface soil ridded of harmful insects and fungi, tree borers and termites destroyed by a new "soft X-ray" and vegetables and flowers grown in winter on electric griddles.

Bothering insects, such as mosquitoes and codling moths, destroyed by light waves too small for the eye to detect, electric lamps which destroy mold and decay bacteria in foods and kill injurious bacteria in water, and green vegetables, human food or animal feeds grown within a few hours inside metal cabinets, without soil and without sunlight.

These are some of to-day's and to-morrow's headlines in the march of science and mechanics into farms, fields and home gardens, writes Charles Morrow Wilson in "Popular Mechanics."

Most soil teems with enemies to plants and man, weed seed, soil hibernating parasites and fungi. For centuries people have striven to sterilize soils and fight these hosts of unwelcome guests. The primitive defense has been to wait until fall to burn off dead leaves and stalks. More recently there have been attempts to purify the soil with chemicals. But few chemicals are effective in cold soils and sometimes the residues prove harmful.

Some progressive farmers, gardeners and florists are trying to sterilize their soil with electrical heat. They find that heating the soil to 180 degrees for five or six hours not only kills soil bacteria and insect life, but virtually every variety of weed seed, converts unavailable forms of soil nitrogen into available plant foods and develops great quantities of ammonia. This changes to nitrate, which results in more rapid plant growth.

The commercial soil sterilizer consists of a box with one cubic yard capacity, built of eighth-inch boiler plate and provided with a top for loading and a bottom dump for emptying the soil after it has been "cooked." A home-made wooden box properly wired might serve as well. Heat is furnished by fifteen electric heating elements carrying a connected load of five kilowatts placed to give even heat throughout the box and allow free space for removing soil. Elements are connected in upper and lower circuits to allow sterilization of one-half cubic

yard. The cost of sterilizing a cubic yard of soil for a period of six hours at three cents a kilowatt hour is approximately \$1. A cubic yard of fertile soil will fill about 2,000 small flower pots, and the saving in weeding alone more than repays sterilization costs.

Winter vegetables such as beets, lettuce, turnips and celery grow well in soil temperatures of from 50 to 60 degrees. "Warm weather" vegetables require a soil temperature of about 70 degrees for best growth.

One gardener has installed a "warming griddle" for starting early peppers, tomatoes, cabbage and various other garden vegetables and flowers for transplanting. He built the griddle on a bench in a corner of his greenhouse, covered the top of the bench with lead-sheathed wire cable made for resistance heating and placed 2x4-inch boards between the cables to protect them from the weight of soil boxes. Within three weeks he produced sturdy plants for transplanting.

Electricity is taking new roles in the above-ground propagation of plants. Dr. Samuel G. Hibben, director of applied lighting for the Westinghouse Company is developing a means of sterilizing soils with a short-wave or soft X-ray radiation capable of penetrating the soil several inches. When the device is fully developed it is possible the soil of fields, gardens and flower beds can be freed of harmful insects, bacteria, larvae and fungi by use of a portable outfit. The soft X-ray has proved sure death to various animal organisms such as insects beneath the bark of a tree and termites in timber.

Plenty To Choose From

Many Suggestions For King George Memorial Have Been Received

Nearly 100 suggestions for the form of the national memorial to King George have been received by Sir Percy Vincent. Many of them are accompanied by drawings, some well executed, others evidently the work of amateurs. They include the following:

A statue of King George attired as an admiral "steering the ship of state through the troubled waters of his reign."

A statue of King George on the summit of a column "at least 100 feet higher than any existing building in the British Empire."

A many-storied concrete tower in Hyde park, the ground level to be a motor garage, the first floor a national theatre, the next a cinema, and the highest an observatory.

The lord mayors of Sheffield and Birmingham and the mayors of four Derbyshire boroughs are being invited by the mayor of Derby, Alderman E. Clark, to support a proposal that Dovedale be acquired for the nation as a memorial to the late king.

Gifted With Fine Voices

Pleasure To Listen To Members Of Royal Family

References made by Wickham Steed to King Edward the Seventh's wonderful voice prompted numerous discussions afterwards on the subject of Royal voices. Wickham Steed declared that he had heard King Edward's "big voice" carry 300 yards against a wind. Guests discussed King George's voice, the most famous in the world, and regarded as ideal by the broadcasting authorities. King Edward the Eighth is also gifted with the family voice, clear and carrying, says the London Daily Telegraph. Other fine royal voices are those of Queen Mary, very deep and dignified, the Duchess of York, clear and silvery, and the Duchess of Kent, deep and of such fine expression that it is a pleasure to listen to it.

Smith—"Is your wife economical?"

Jones—"Sometimes. She used only 30 candles on her fortieth birthday cake."

World Dilemmas in Supply and Demand

The noticeable increase in the efficiency of overseas agriculture presents a dilemma for the British Dominions as exporters of farm produce, and also for the farmers of Europe, Sir Alan Garret Anderson M.P., stated recently at a banquet held in Liverpool. One hears the complaint that the persistent urge of surplus population in Germany, Italy and elsewhere must be met, he said, but new countries no longer welcome immigrants. One can understand the diffidence of the new countries in asking for new settlers. Every year the world, by progress of science and invention, spends less of its income on primary necessities and more on luxuries, the greatest of which are leisure, travel, service and education. And every year the primary industries call for less and less labor.

As if the problem set by science to the farmer was not great enough Sir Alan continued, nationalism takes a hand by preventing hungry Europeans from eating good, cheap wheat from overseas, hence not only bad times in Canada and Australia, but Black, Brown and Red Shirts in Europe. If we do not speedily feed these Europeans better there will come war. Before the slump France, Germany and Italy combined imported about 200,000,000 bushels of wheat per annum. In 1934-35 their net imports were only 11,000,000—very bad for Europe and the farmers overseas.

Items of Interest

Australian wheat afloat is commanding a premium in the British markets over Canadian Northern. This is due to the reluctance of Australian farmers to sell now that the bulk of the crop in that country has been disposed of, while Canada is pressing sales.

Motor fuel from weeds, highways made partially of cotton, cosmetics from oats and dress goods from pine trees—were some of the research developments described on Tuesday before the second annual conference of the Farm Chemurgic Council at Detroit.

Western Dress "Extraordinary" Say Magistrates

HONG KONG, May 7 (A.P.)—Daring young ladies of Canton, who appear on the streets with bare arms, may continue to do so if their garb bears the label, "extraordinary dress."

One hundred girls, mainly university co-eds, who sought to emulate the dress example of their western sisters, were rounded up by police yesterday and charged with violating the law prohibiting bare arms.

They were lectured by the magistrates, then permitted to go forth after a rubber stamp reading "extraordinary dress" had been applied to their clothes.

Golf Notes.

The President vs. Vice-President will be the first competition of the season and a start was made yesterday afternoon and will be continued during the week of May 13 to 20.

The teams are:

President	Vice-Pres.
Ranton	vs. Brusso
Reiber	" Wordie
McGhee	" McFarquhar
Johnson	" Kirby
Julien	" Watkin
Chambers	" Buhr
Fleury	" Friesen
R. Berscht	" Goertz
McKenzie-Grieve	" W. Smith
Kaufman	" Fisher
L. Berscht	" G. Gabel

Any others intending to play may organize their own game.

Scores will be turned in to the secretary and will govern handicap for the next event, so as to give all golfers a chance to win.

* * * * *

It is expected to have the greens in first-class condition for this competition.

* * * * *

It is expected to start the handicap event next Wednesday, May 20. A dollar's worth of golf balls will go to the lowest score.

* * * * *

The ladies are expecting to get together and arrange a competition shortly.

* * * * *

By rallying together there is no reason why Didsbury Golf Club should not have its best season in years.

* * * * *

An invitation has been issued to Olds golfers to join the club, and fees for the visitors have been set at: Gents \$2.50 and Ladies \$1.00.

GOPHER POISON. NOTICE.

The Municipality of Mountain View, No. 310, has arranged with the dealers in gopher poison at Didsbury, Olds and other points, to supply an equal amount of gopher poison to that paid for by the farmers of the municipality. The arrangement to be in effect until the 1st day of June, 1936.

The Council requests that the farmers place their poison early.

OLIVER
FARM EQUIPMENT

THE 2-IN-1 HARROWS!

The owner of a TGP (Tough Going Preferred) or TGPX Oliver Disc Harrow has a harrow that can "stand the gaff" behind a powerful tractor in general field work—but which is especially suitable for orchard, grove or vineyard service.

TGP Harrows, with 7-inch disc spacing—heavy and with big heat-treated discs—are excellent general purpose machines—while their low construction with automatic angling fits them particularly well for work in orchards, groves and vineyards. In the TGPX, 9-inch spacing between discs adapts these harrows to orchard and grove work—or to any work where there's handling of cover crops. The low swung, leverless construction prevents damage to branches when discing close to trees.

A dozen announcements this size would not be large enough to tell the whole story of these famous harrows. Come and see them—the 2-in-1 Harrows that can give you the best all around service.

Alberta Crop Report.

From Alberta Department of Agriculture.

Spring work on the land over the province became more or less general about a week ago, but in central areas and the Edmonton zone seed-
ing is again delayed by recent heavy rains. Light showers only have been reported in the south. In the Peace River district considerable rain has fallen north of the river, but the weather has been fair with only occasional showers in the Grande Prairie area. The season is later than normal by about one week in the south of the province and approximately two weeks in the centre and north, excepting in the Peace River area, which is considerably ahead of last year, especially south of the river.

From Lethbridge to Medicine Hat wheat is 50% seeded, but from Cardston north to Vulcan not more than 25% is in the ground. Seed-
ing of coarse grains is just nicely underway. In southern irrigation areas 75% of the sugar-beet crop is seeded. Moisture conditions in the south are fair to good.

From Brooks to Calgary the season is abnormally late, with 15% wheat seeding reported, but general crop prospects bright. Some soil-drifting has occurred and considerable winter killing of alfalfa in the eastern irrigation district is reported.

In the district north from the Red Deer River to Coronation wheat seed-
ing is only about 10% completed. High winds and soil-drifting have retarded operations to some extent in the Berry Creek area. From Drumheller to Stettler seeding is now general, with soil and moisture conditions excellent.

Though spring work is now general east of the Calgary-Red Deer line little has been done to the west, where recent rains are causing further delay. Very favorable conditions exist in the Red Deer-Lacombe area, with 15% wheat seeded. North to Edmonton and in the Camrose district operations are less advanced and have been further delayed by heavy rains.

In the Sedgewick area and north to Vermilion wheat seeding is well underway, being delayed very little by recent weather conditions.

Through the territory west, north and east of Edmonton spring work had only commenced a week ago and little progress had been made before the heavy rains of this week, which will delay operations a week or more.

In the Peace River district south of the river a limited amount of wheat seeding was done previous to the snowstorm of April 18, and seed-
ing is now general with some areas well advanced. Weather has been warm and showery with general conditions very satisfactory and two weeks in advance of last year. The earlier season also prevails north of the Peace with about 20% wheat seeded, but work at present delayed by wet weather.

Soil conditions throughout the province are good, excepting some parts of the north, where there is an excess of moisture because of heavy winter snows and spring rains which occurred before the land could dry out. There is an abundance of surface moisture in all districts, with reserve moisture apparently plentiful excepting some parts of the south-eastern area.

Soil-drifting in the south and east has been less extensive than usual, only one or two having reported any serious damage in this respect.

In the south and central areas there appears to be a tendency towards a slight increase in wheat acreage, but any increase there may be counteracted by reduction in the north, especially if the seeding in the north is unduly delayed. Supplies of seed are adequate excepting a few very limited districts in the north, where frost injury last season was very severe.

Livestock generally is reported in thin condition following an exceptionally severe winter and shortage of feed in some districts. Winter losses have not been abnormal. Grass is now growing rapidly in most districts and relief from feed shortage is already being felt.

A slight increase in butterfat deliveries to creameries in the province for the first four months of the year is reported. This increase was more substantial in the south and central sections than in the north.

Burnside Notes.

Mr. Fred Metz has engaged for the summer with Mr. Jim Dundas at Allingham.

Mr. and Mrs. Otto Bittner and Mr. Bob Spraggs were Sunday visitors with Mrs. Agnes Patterson.

Mrs. N. Eckel and Mrs. B. Woods spent Thursday last with Rugby friends.

Born in Calgary on Tuesday, May 12 to Mr. and Mrs. Jack Garner a daughter.

Mrs. Walter McCulloch is visiting her mother and other friends in Calgary.

Miss Zook, formerly of Condor, Alberta, is spending a few weeks with Mrs. B. Woods, prior to taking another appointment.

Miss Margaret Coyne arrived Friday from Fleet, Alberta, and is helping Mrs. Lloyd Hehn for the summer.

We are sorry to hear that little Bobby Richardson, eldest son of Mr. and Mrs. Harry Richardson, had to be taken back to the Calgary hospital again for treatment. He was only home a week after being in the General Hospital for three weeks and having three operations for mastoid trouble. We hope he will soon be returning home restored to good health.

RUGBY NOTES

The May meeting of Rugby W.I. was held at the home of Mrs. Parker. There was a large attendance, the fine weather having lured many from their homes. We were honored with a visit from our constituency convener, Mrs. N. Eckel, who gave a brief address. Arrangements were made for a Poster Competition for our three schools on May 30th. A cooking competition for our members is also planned for the same time. Plans are also on foot for a visit to the O.S.A. in July. Mrs. Harvey Hosegood, as League of Nations Convener, gave an excellent paper on "Women and Peace." The meeting then adjourned. Next month the meeting will be at the home of Mrs. Farrant. "Handicrafts" will be the topic for the afternoon.

Jack Miner's Birthday

Famed Naturalist At 71, Counts His Wealth In Friends

Jack Miner celebrated his 71st birthday April 10th. Edgar A. Guest, the Detroit poet, terms him "the best beloved Christian in America"; while Irvin S. Cobb, writer and humorist, says "Jack Miner is the greatest practical naturalist on the planet." An editorial in the "Ottawa Citizen" says: "Not Watt, but a succession of inventors made the steam engine; not Bell, but many electrical experiments made the telephone. Jack Miner, in this sense, has given us the bird sanctuary." In other words, popularized the sanctuary idea.

While his hair is turning somewhat white, otherwise no one can notice the years creeping on him, because he is as active and as enthusiastic in his study of bird life as he was twenty years ago.

JACK MINER, NATURALIST

The world knows he is poor financially, and he says: "My biggest asset is my friends throughout the world, and the good health the good Lord has blessed me with. The friends are something money cannot buy. Some men can count their money, but I can't count my friends."

In his birthday interview, he said: "If it were not for children, flowers, birds and music—especially children—I would have no desire to carry on." And his advice to young men was: "Don't work all your life to make a living, but work to live all your life."

When asked what he thought about world affairs, he said: "The hope of the world is more love and the right kind of education, and less bayonet-point compulsion."

Speaking of religion, he said: "There is too much 'churcharnity' and not enough Christianity, and the world needs more evangelism and less 'apeism'."

Everybody knows he never uses tobacco in any form, and never drinks anything stronger than water; but he said to-day, "You cannot judge the size and quality of any man's heart by the smell of his breath."

In closing the interview, he said: "If a man is built of the right material, the more you sit on him the broader it will make him."

"Be sure you're right and then go ahead, because you will be criticized if you do, and you will be criticized if you don't; so, do and be criticized; but to escape criticism, say nothing, do nothing and be nothing." 2147

MILLION DOLLAR WRIGLEY SIGN STARTS OPERATION

The new Wrigley Spearmint Gum Sign on Times Square, New York City, a million dollar project, largest of its kind in the world, was formally dedicated and put into operation on Saturday evening, March 28th.

The sign occupies the entire block on Broadway from 44th to 45th Street on the east side of Times Square. The new sign is a superstructure on the top of a two story steel and concrete building built especially to bear the tremendous weight of the display. This world's largest spectacular towers ten stories high; the Spearman on the sign has a grin a yard wide. The package of Wrigley's Spearmint is larger than a boxcar.

The sign shows gigantic, multi-

coloured, tropical fish swimming about the sky; the largest fish measures 42 feet from tip to tail. The flashing mechanism consists of 21 pieces of apparatus, all operating in unison, but no one piece is synchronized with another. The electrical current required for this huge display would serve a city of ten thousand. There are 1,084 feet of neon tubing and almost seventy miles of wire used. The investment on the entire project is a cool million dollars.

Hundreds of thousands of people will pass the sign each day; the number who pass daily through the subway at Times Square is estimated to be almost equal to the population of Toronto.

Matched Crochet for Matchless Chic

Household Arts by Alice Brooks

A Beginner Can Crochet These

PATTERN 5559

Have you seen a smarter pair of matching accessories this Spring? And wouldn't they give your new ensemble that finishing touch you crave? The jaunty, dip-brim hat is quickly crocheted in guimpe, its brim in rib stitch, with the same stitch repeated in the purse flap. A braided cord trims both hat and purse.

In pattern 5559 you will find complete instructions for making the set shown; an illustration of it, and of all the stitches needed; material requirements.

To obtain this pattern send 20 cents in stamps or coin (coin preferred) to Household Arts Dept., Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg.

There is no Alice Brooks pattern book published

According to a theory of two English scientists, magnetic storms that interfere with telegraph and cable service are due to a ring of electric current that surrounds the earth like Saturn's rings.

An explorer reports that he has discovered a bean in Southern Asia that grows at an astounding rate. The usual procedure is to place the bean in the ground and then jump clear.

Now Science Explains Why So Many People Past 40

Feel That They're Slipping Losing Their "Grip" on Things

Many people 'round 40 think they're "growing old." They feel tired a lot . . . "weak." Have headaches, dizziness, stomach upsets.

Well, scientists say the cause of all this, in a great many cases, is simply an acid condition of the stomach. Nothing more.

All you have to do is to neutralize the excess stomach acidity.

When you have one of these acid stomach upsets, take Phillips' Milk of Magnesia after meals and before going to bed. That's all!

Try this. Soon you'll feel like another person! Take either the familiar liquid "PHILLIPS' Milk of Magnesia" or the convenient new Phillips' Milk of Magnesia Tablets. Made in Canada.

ALSO IN TABLET FORM:

Phillips' Milk of Magnesia Tablets are now on sale at all drug stores everywhere. Each tiny tablet is the equivalent of a teaspoonful of Gentile's "Milk of Magnesia."

PHILLIPS' Milk of Magnesia

Protecting Art Treasures

China Not Allowing Any More To Go Out Of Country

China has served notice that it will no longer play Santa Claus to the museums of the world.

For many years, China's priceless art treasures—relics of a 4,000-year-old civilization—have been flowing out of the country.

Archaeologists say, however, that what has been taken out is as nothing compared to what still lies underground. The Chinese government has awakened to the value and importance of these undiscovered treasures and is taking steps to protect them.

None of the national art treasures is being more closely guarded than the recently discovered Thousand-Buddha caves, near Lanchow, Kansu, described by some who have seen them as the most important cultural find in China in the present century.

Many valuable pieces, including manuscripts more than 1,000 years old, were removed from the caves at the time of their discovery, but recent British and United States expeditions have been frustrated in their efforts to obtain specimens of the superbly executed wall-paintings and sculptures with which the underground galleries are crowded.

Locate Oil Domes

The seismograph, used in tracing earthquakes, is now employed extensively to locate oil domes in oilfields, reducing the risk of drilling "wild-cat" wells. Dr. Robin Willis, Calgary geologist, told a gathering of geologists, mining engineers and business men at Vancouver.

Spruce and fir trees retain their needles longer than most other Christmas tree types.

Find Out

From Your Doctor
if the "Pain" Remedy
You Take Is Safe.

Don't Entrust Your
Own or Your Family's
Well-Being to Unknown
Preparations

BEFORE you take any preparation you don't know all about, for the relief of headaches; or the pains of rheumatism, neuritis or neuralgia, ask your doctor what he thinks about it—in comparison with "Aspirin."

We say this because, before the discovery of "Aspirin," most so-called "pain" remedies were advised against by physicians as being bad for the stomach; or, often, for the heart. And the discovery of "Aspirin" largely changed medical practice.

Countless thousands of people who have taken "Aspirin" year in and out without ill effect, have proved that the medical findings about its safety were correct.

Remember this: "Aspirin" is rated among the fastest methods yet discovered for the relief of headaches and all common pains . . . and safe for the average person to take regularly.

"Aspirin" Tablets are made in Canada. "Aspirin" is the registered trade-mark of the Bayer Company, Limited. Look for the name Bayer in the form of a cross on every tablet.

**FLEMING'S
FOLLY**
— BY —
LAWRENCE A. KEATING

CHAPTER XII.

Half an hour after the irrigation dam workers had concluded to return to their toil, Fleming emerged from the ranch house at sound of a horseman approaching. He recognized Marty Bush, the local cattle agent. Starting to meet him, Link stopped, his attention drawn to a bit of paper in the dust where marks of Vaile's body still showed.

He picked up the crinkled sheet, smoothed it out, and read in pencilled scrawl: "Keep on the job. We'll run this guy out yet."

Fleming looked up as Bush came closer. "Howdy, Link. Have a customer cigar. Say," he added, noting his friend's scowl, "what yuh got there, a love note without any love?"

Fleming surrendered his find. "Just had a run-in with Gyp Vaile when he tried to get my men on strike because I couldn't meet their payroll. Looks to me like Gyp dropped this. What do you think of it?"

The cattle agent read the note, and handed it back looking thoughtful. "Somebody shore put Gyp up to throwin' monkey wrenches in the machinery of buildin' yore dam. But who would it be? Otto Pieper, maybe? You owe Otto considerable money, don't yuh, Link? And in case it came to a sheriff's sale the Stockmen's Bank'd come off first bet.

He pursed his lips as again he studied the writing. "This isn't like Pieper's hand. Besides, I hardly think he would hire a man like Vaile to try to crack a sluice gate and get my workers to strike. No,"

he mused, "somebody else is behind Gyp."

"Break a sluice gate, eh?" Bush gave a low whistle. "Well, you'll have to keep your eyes open, Link. Some folks can't get along without pryin' into other folks' business, and I reckon yuh made lots o' enemies, buildin' that dam.

"By the way," he went on, chuckling, "a couple of hours ago I was talkin' to a man in the Trailend Hotel in town, and happened to glance out the window in time to see some different human nature." He winked and nudged his friend. "You and a certain young lady had that sick calf look, standing hand in hand, staring at Irv Lane's jewelry. Ought to buy her a diamond and get married, Link. It's the life!"

The other struck a match for the cigar Bush had tendered him, and expelled a cloud of smoke to snuff the flame. "Marty?" he returned good naturedly. "I've got troubles enough now."

"Yes," Marty stared toward the light streak in the foothills that was the Silver Creek Dam. That's what I'm here to talk about, your troubles. Wantin' to ship steers day after tomorrow?"

Fleming led the way back to the ranch house stoop where both men rested on a home-made bench. "Helen and I are short-handed, but we're rounding up everything with horns and a tail. We're depending on you, Marty, to sell it for us."

Bush made no reply for a moment. "I'd like to see you hold your beef another ten days, Link. I've studied the market quite some time now, and it's my judgment you'd get more money. Steers for market ain't so plentiful, but it won't be reflected in price till shipments sag under last year."

"Marty, just between us—and I wouldn't say this to another man in the county—Helen and I have to sell now. We've got to have cash, or else . . ." He gestured significantly. "Hm. Heard about her gettin' robbed of the eight hundred." The agent cast a sidelong glance at Link. "Hit you purty hard?"

Fleming nodded. "Look here," Marty proceeded, "I want to see yuh get top price for your beef because you really need it so much. Wouldn't like to sell me a hundred acres o' that wasteland, would yuh, Link?"

The youth laid a hand on his friend's knee. "Do you believe in the dam?"

"General opinion's against it, yuh know. And I backed out once."

"I wouldn't sell you a hundred acres of solid gold, Marty, unless you really had faith in it."

There was a full minute of silence. The cattle agent's cherubic countenance wore a troubled look. Finally he said: "Link, would yuh—uh—like to borrow a couple hundred?"

Fleming was wholly surprised. He happened to know that Marty's diminutive wife, Lenore, had just recovered from a costly illness. "Thanks," he said with feeling. "I couldn't give security except my steers. I'm keepin' 'em clear because I'll need every cent they'll bring. And more, I reckon."

Bush scratched his bulbous nose. He dug inside his calfskin jacket, produced a two-inch-thick packet, and tossed it on his host's lap. "Ho hum!" he yawned, rising to stretch wearily. "There's five hundred in small bills. Thought that'd suit yuh best. I got to ride over to Pidge Somers' place an' talk beef with him. So lo—"

"Marty! Well," Link confessed, exceedingly pleased as he fingered the money, "I guess you're crazy. But—oh, shucks!" he exclaimed. "I'm shore obliged!"

"No?"—mockingly. "Link, get me Triple H an' Star Loop beef to Holmes Junction early Thursday mornin', and I'll fix you up. Want cash then too, eh? So long, Fleming."

Mr. CAFFEINE - NERVES . . . he does a fade-out!

WHAT DO YOU THINK, JACK... MY OLD SCHOOL CHUM, ALICE, HAS COME TO PAY US A VISIT!

WHAT—AGAIN? SHE JUST LEFT HERE SIX MONTHS AGO!

THERE GOES YOUR PEACE AND QUIET! WHAT IS THIS ANYWAY... A HOTEL?

HELLO, THERE JACK... HOW HAVE YOU BEEN?

WELL... I DIDN'T EXPECT TO SEE YOU AGAIN SO SOON!

HIST! BE AS RUDE TO HER AS YOU CAN... THAT'S A GOOD WAY TO GET HER TO LEAVE!

SAY... I'LL DRINK ANYTHING IF YOU TWO WILL JUST LEAVE ME ALONE!

BUT, JACK... YOU REALLY SHOULD TRY POSTUM. IF I GET SOME WILL YOU DRINK IT FOR AT LEAST 30 DAYS?

CURSES! THESE WOMEN HAVE SPOILED MY GAME! I CAN'T LIVE IN THE SAME HOUSE WITH POSTUM!

YOU CAN SEE HOW IRRITABLE JACK HAS BECOME. THE POOR BOY DOESN'T SLEEP WELL, AND HAS HEADACHES AND INDIGESTION.

SOUNDS LIKE CAFFEINE NERVES! CAN'T YOU GET HIM TO GIVE UP TEA AND COFFEE AND SWITCH TO POSTUM INSTEAD?

THIS POSTUM SURE TASTES DELICIOUS! AND WHAT A GOOD NIGHT'S SLEEP I HAD LAST NIGHT! I TELL YOU, DEAR, I CERTAINLY AM FEELING GREAT LATELY!

NOW AREN'T YOU GLAD YOU SWITCHED TO POSTUM? YOU'VE BEEN A DIFFERENT MAN EVER SINCE!

30 DAYS LATER

IT IS TRUE that many people can drink tea and coffee without ill effects. But there are thousands of other people who cannot. Without realizing it, you may be one of these.

The caffeine found in both tea and coffee may be working night and day to rob you of sleep, upset your digestion, or undermine your nerves.

If you suspect that tea and coffee disagree with you . . . switch to Postum for 30 days. It is simply whole wheat and bran, roasted and slightly sweetened.

It is a delicious drink—and contains nothing that can possibly harm you. It is very easy to prepare . . . and costs less than one-half cent a cup.

FREE—Let us send you your first week's supply of POSTUM—Free! Write for it to Consumer Service Dept. 101, General Foods, Limited, Cobourg, Ontario. P-36

ing's Folly! See yuh in bankruptcy court."

While he made off on his horse Link stared at the wad of bills in his hand. Ginning, he went at length to the corral where he transferred his saddle to a skittish mustang. Half an hour later he left his mount in a patch of cottonwoods that bordered the heretofore useless valley, and started on foot the remainder of the way to the irrigation dam. It was a rocky, rather steep climb even by the well-worn trail over which every pound of material had to be transported. Link walked along feeling the bulge of the money in his pocket, his step considerably lighter than it had been an hour ago.

On a rocky eminence which overlooked the dam and the broad acres to be irrigated, he saw three figures in conference. Jackpot Mell, the gunman, Roper Kilgo, and—yes, it was Gyp Vaile.

Link paused. His fingers encountered that anonymous note he had found. On quick impulse he untied his blue neckerchief. This he wrapped about his right hand as if it were injured, then strode casually forward.

"Here comes the guy that talks men into workin' for nothin'!" Kilgo greeted caustically.

Jackpot smiled his dry, reserved smile. Vaile darted beady eyes for a means of escape but Fleming blocked the only exit. He came on, a tolerant look on his tanned face. "Wouldn't put it that way, Roper. The boys know it takes money, and that Helen and I are a little hard pressed right now."

"Yuh'll be harder pressed, an' then not pressed at all!" scoffed the thickset rancher.

He meant that bankruptcy would end the project. Link halted sideways to Mell. "Say, Jackpot, will you reach that package out of my pocket? Got my hand between a mare and a corral bar. Jest get that wad of money, will yuh?"

All three stared from Link's hand to his trousers pocket. They exchanged frowns of surprise. "Money?"

"Payroll money, five hundred bucks of it. Oh, by the way," Fleming added carelessly as he accepted the wad from Jackpot, "I wish you'd do me a favor, Roper. Write me a note to Marty Bush, since I can't do it myself with this bad paw."

Kilgo tilted back his sombrero and summoned a friendly look that was not deceiving. "Well—shore. I'll write yore note." He produced a stub of pencil and Link gave him a page out of a pocket notebook. Leaning to use a boulder for a desk, the man looked up inquiringly.

"Write this," Fleming requested. "Dear Marty: I'm bankin' on you to sell those steers Thursday and get me cash instead of a bill of lading, as Miss Hamilton and I have to raise money quick for the dam. I'll meet you at Holmes Junction Thursday morning for it. Just sign my name," he ended. "Much obliged."

He turned to go back to the main trail but could not resist one parting shot. "Glad you let me win that ground three years ago, Roper. Yes, sir," he chuckled, "take a good look at the dam and wasteland—you can tell it's going to jump from fifty cents to two hundred an acre!"

(To Be Continued)

A Formidable Weapon

Yokohama Police Decide Inch-Long Gun Is Dangerous

Inspired by American toy pistol which a friend had sent him, Icizo Endo, a watchmaker at Yokohama, Japan, manufactured an inch-long firearm capable of firing real bullets, and it landed him in the net of the law. Yokohama police have decided the miniature shooting arm is a real gun which could be turned into a formidable weapon. It will kill dogs and penetrate a two-fifths inch board. Endo sold it to a friend for 60 cents and was engaged in turning out a second one when arrested. He said he made the first weapon in four days and loaded it with tiny lead bullets and powder taken from firecrackers.

Cloves are the dried flower buds of the clove tree.

Little Helps For This Week

Seekest thou great things for thyself? Seek them not. Jeremiah 14:5.

I would not have the restless will That hurries to and fro, Seeking for some great thing to do, Or some great thing to know; I would be treated as a child, And guided where I go.

Be little and then you will be content with little, be not overwise or over eager in your own willing or desiring, and by degrees come to the knowledge of your Guide who will lead you step by step in the path of life, and teach you to follow. Be still and wait for light and strength. Sink into the sweet and blessed littleness where you live by grace alone. Contemplate with delight the holiness and goodness of God, which you do not find in yourself. How good it is to be nothing when God is all.

Egypt has prohibited the exportation of animals used for agricultural or transportation purposes.

Gold output of the Transvaal in Africa last year was 10,776,700 ounces.

BACKACHE

IF you have backache, dizzy spells, headaches, do not neglect your kidneys. Take Gin Pills for prompt relief at the first sign of these symptoms. You will feel better, look better—be better, if your kidneys are functioning properly.

WEEKLY SERMONETTE

"Jesus taught — not temporal betterment, not governmental improvement, not intellectual development, not moral reformation—but REGENERATION, a change in the individual himself!"

WEEKLY JOKE

"Yes," the teacher explained, "quite a number of plants and flowers have the prefix 'dog.' For instance, the dog-rose and the dog-violet are well known. Can you name another?"

There was silence, then a happy look illuminated the face of one boy. "Please, Miss," he called out, proud of his knowledge, "Collie-flowers."

The Soft Answer.

An angry customer, with proofs of his photograph, shouted at the photographer: "Do I look like this picture? Have I a squint and do I look like a prizefighter? I ask you, is this a good likeness?"

The photographer timidly replied: "The answer, sir, is in the negative."

GOPHER POISON. NOTICE.

The Municipality of Westerdale, No. 311, has arranged with the dealers in gopher poison at Didsbury, Olds and other points, to supply an equal amount of gopher poison to that paid for by the farmers of the municipality, the arrangement to be in effect until the 1st day of June, 1936.

The Council requests that the farmers place their poison early.

Didsbury Takes 1st Softball Game

Didsbury won the first softball game Tuesday night when they took Olds into camp with a score of 16-6.

It was anybody's game up to the sixth when Didsbury got the breaks and ran in ten runs. The game was well played, with Brightman, a newcomer to the team, and Krebs, starting for Didsbury with home runs.

The batteries were: Didsbury—Holub, Krebs and Len Berscht.

Olds: V. Holmes and Schrader.

Evangelical Church Notes

Next Sunday morning a "Church Loyalty Service" will be held. The goal is 100 per cent attendance. The roll of members and adherents will be called by families and it is hoped that every member of every family will be present to answer to their names. The officers of the church and of all the societies will sit together in the front of the church. The subject of the sermon will be, "The Church and What It Means to Me." In the evening the pastor will preach the third in his series of sermons on Pictures of Jesus, "His Golden Girdle and His Snow-White Head and Hair."

Melvin Notes.

Melvin School District is very proud to have the honor of winning the shield for this year at the musical festival held in Olds last Friday and congratulations are the order of the day for Miss Ray and her pupils.

Mr. and Mrs. P. Daniels of Calgary spent the weekend with Mr. and Mrs. Godfrey Carlson.

Mr. Fred Olsen and Mr. Lyons of Calgary spent the weekend with Mr. and Mrs. Olsen.

Mr. and Mrs. Roy McNaughton were Sunday visitors with the latter's mother at Eagle Hill.

Mr. and Mrs. Ed. Parker were the Sunday evening guests of Mr. and Mrs. Charles Youngs.

Mr. and Mrs. Andrew Peck of Didsbury and Mrs. R. Lynn of Creston, B.C., visited Mr. and Mrs. John Krueger on Sunday.

Mr. and Mrs. George Youngs and family, Mr. and Mrs. Charles Youngs and family and Miss Hazel Ray were Sunday dinner guests with Mr. and Mrs. Tom Duncan.

Mrs. August Krebs and Mrs. Roy Shaw spent the weekend in Calgary and found Mr. August Krebs much improved. He hopes to be home before many weeks are passed.

Doings of Our Neighbors

AT CARSTAIRS: A Ladies Golf Club has been organized with Mrs. Donnelly as president. The playing days were set at Tuesday afternoon and Friday morning of each week.

AT INNISFAIR: Rev. D. K. Andrew is the new minister at the Presbyterian Church and has taken up his residence at Innisfair. He will also have charge of the Olds Presbyterian Church.

Jack Currie has been appointed secretary of the Innisfair Tennis Club.

AT OLDS: Rev. F. E. H. James has accepted a call from the First United Church, Brandon. He is expecting to leave for his new appointment about July 1st.

AT THREE HILLS: This year's assessment rate has been reduced from 34 mills to 31 mills. To effect this reduction, \$4,500.00 will be used from the \$13,000.00 reserve fund.

CARD OF THANKS

We wish to thank all our friends and neighbors for the help and sympathy extended us in our recent bereavement.

Mr. and Mrs. W. C. Bloxham.
Mr. and Mrs. Wm. E. Roberts.

LOCAL & GENERAL

Mr. and Mrs. J. Russell motored to Cochrane on Sunday.

We carry a line of Boys Shirts from 75c up.—T. E. Scott.

Miss Evelyn Liesemer assisted at a recital given at Carstairs last Thursday, playing two cello solos.

The Gun Club will hold their second shoot of the season Monday next and a good turnout is expected.

Mr. Ed. Buhr and family are moving this week into the Hehn place in Lacknerville. Mr. Hehn will visit his son Lloyd Hehn for a few weeks.

Mr. Cecil Studer, son of Mr. and Mrs. A. G. Studer, has been successful in passing his final examination as a chartered accountant.

Five crates of pigeons from the Coleman Homing Society were shipped to Didsbury and were liberated by Constable Kercher at 5 o'clock Saturday morning.

For the best and cheapest in Work Shoes—Buy from T. E. Scott.

A meeting of the Didsbury Agricultural Society will be held Friday evening, May 15 at 8 o'clock at the office of C. E. Reiber. All interested are requested to attend.

The ladies of St. Anthony's Church will hold a card party and social at the home of Mrs. Henning Fischer, 3 miles west of town, on Friday evening, May 29.

Mr. and Mrs. Allen Hunsperger, Grace Hunsperger and Madlin Snyder drove to Three Hills on Thursday, where they spent the day with Mr. and Mrs. Dave Witwer.

Miss Jessie Topley, who recently graduated with her degree of R.N. from the Royal Alexandra Hospital, Edmonton, returned home last weekend.

Mr. and Mrs. August Fisher, who have farmed in this district for more than twenty years, last week moved to Calgary. Their son, Mr. Ernest Fisher, will have charge of the farm here.

The Didsbury Band will parade Saturday night and render popular selections on the C.P.R. lot, Main St. Be sure and buy your ticket on the Chesterfield Suite from one of the boys!

We have Boys Scampers from \$1.75 up. Just the thing for school wear.—T. E. Scott.

E. G. Ranton, J. W. Halton and Dr. Liesemer drove to Calgary on Friday to purchase the Chesterfield Suite which is being given away by the Didsbury Band at the concert to be held May 22.

Mr. and Mrs. Sam R. Scott, of Claresholm, announce the engagement of their only daughter, Helen, to Mr. Ross Moffatt, of Vulcan, only son of Mr. and Mrs. J. E. Moffatt, of Didsbury. Miss Scott is a native daughter of Olds.

A Box Social will be held under the auspices of S.C. Group No. 1 on Saturday, May 16 at 8 p.m. in the Peterson Block. Ladies please bring plain boxes, which will be sold from 25c to 50c. A program will be provided. Everyone welcome. E. P. Foster, M.L.A. will be guest-of-honor, and a feature program will be presented by the Edwards Bros. and other local talent.

Gray Sharp has taken a number of moving pictures locally and he informs us that they will be shown on the screen next Friday and Saturday with the regular show. The pictures will be run on a smaller machine and they will not be quite as large, but they will be good. You had better come to the show on these nights—you may see yourself on the screen.

We have a full line of Boys Rubber-Soled Shoes from 70c a pair up.—T. E. Scott.

Miss Enith Hunsperger has accepted a position as stenographer and bookkeeper at the Beulah Home, Edmonton. She will leave to take up her new position on June 8. For the past eight years Miss Hunsperger has been employed at the Didsbury Creamery. Miss Ann Morton will occupy the position vacated by Miss Hunsperger and will be assisted for the summer by Miss Ruby Traub.
